

# MANUFACTURING WOW EFFECTS

**ROLLBOB® SIMULATOR**

INTENSIVE. FLEXIBLE. IMPRESSIVE.

# ROLLBOB® SIMULATOR

Unique innovation for immersive experiences

Experience the ROLLBOB® simulator – a fascinating combination of state-of-the-art technology and a realistic driving experience. It offers the thrill of a ROLLBOB® ride in the smallest of spaces and captivates visitors of all ages. Whether as the main attraction or an additional highlight – this simulator leaves a lasting impression. Use the advantages of innovative VR technology to take your brand and your range of experiences to a new level across all sectors.

## Your ideas – our innovations

We at Mountain Innovations are always open to new challenges and creative ideas. Do you have a special application or a vision for the ROLLBOB® simulator? Share your ideas with us and we will do everything we can to realise them together with you. Let's create the next great experience together!

  - Variable platform
  - Safety railing
- **Operating conditions:**  
+5 to +40 °C indoor
- **Optional features:**  
Integrable effects such as braking effect, wind, water droplets, sound and vibration

# HIGHLIGHTS OF THE ROLLBOB® SIMULATOR

**Maximum effect in the smallest space**  
Despite its compact size, the ROLLBOB® simulator offers an intensive experience that requires little space.

**Active experience for everyone**  
Users and spectators can experience the realistic ride together, supported by a 55-inch screen that shows the action live.

**Immersive driving experience**  
True-to-life movements, wind and vibration effects and a lifelike environment create an unrivalled driving experience.

**Exclusive content and diverse railway routes**  
Specially developed VR rides offer unique experiences, while users can enjoy realistic rides on simulated or existing tracks.

**High-quality workmanship and safety**  
The simulator impresses with its quality and durability, complemented by strict safety standards for a carefree experience.

**Flexible design & simple operation**  
Customise the simulator according to your wishes, including branding and track layouts. The sophisticated design makes it easy to operate and transport.

**Innovative planning tool**  
Use the simulator to virtually develop customised track layouts and realistically present the ROLLBOB® experience before implementation. This increases the impact and success of your project.

**Barrier-free experience**  
The ROLLBOB® simulator also gives people with disabilities the opportunity to enjoy an exciting experience – an adventure that would otherwise not be accessible to them in this form.

## CROSS-INDUSTRY USE

The ROLLBOB® simulator provides unforgettable experiences, especially in indoor environments where it serves as the perfect bad weather alternative and captivates both young adventurers and experienced adrenaline junkies with its authentic, nature-like effects.

- **Tourist leisure facilities**  
Weather-independent main attraction or supplementary activity in indoor adventure worlds
- **Museums and exhibition spaces**
